Exit Meeting Date: 2017-09-01

The following report provides a summary of the results of Crown Ward Reviews. It is based on the following tools:

- Crown Ward Review - Individual Case Report
- Crown Ward Review - Adoption Probation - Individual Case Report

Findings for each tool are presented in relation to:

- Compliance by Requirement;
- Compliance Summary
- Supplementary Information
- Outcome Measures

Colour coding shown on the "Compliance by Requirement" table indicates compliance results according to ranges of achievement:

- Gold for 'full' compliance at 100%;
- Green for 'high' compliance - 75% to 99%;
- Yellow for 'moderate' compliance - 51% to 74%;
- Red for 'low' compliance - 50% or less.

Results related to positive outcomes for children are identified by:

- 'S' for child safety;
- 'P' for permanence;
- 'W' for wellbeing.

A. CROWN WARD REVIEW

The annual Crown Ward Review (CWR) is undertaken by the Ministry of Children & Youth Services' Child Welfare Review Unit, in co-operation with each child welfare agency and ministry regional offices. The purpose of the review is to determine if the placement, services, educational and social needs of Crown wards in Ontario are being identified and appropriately addressed. The CWR is an accountability mechanism used by the ministry to determine if children's aid societies are undertaking appropriate planning and services for each child reviewed. The review monitors compliance with legislation and requirements related to the care of children.

The objectives of the CWR are:

- To monitor agency compliance with the *Child and Family Services Act* and its requirements in relation to the care of each Crown ward;
- To look for adequate assessment of needs, suitable placement, supporting services, and realistic planning for and with the Crown ward;
- To issue directives regarding non-compliance and to make recommendations concerning service provision in selected specific areas as appropriate;
- Using a strengths-based approach, identify and convey to societies the strengths of service delivery.

B. PHILOSOPHY AND GUIDING PRINCIPLES

The Crown ward review process is in keeping with the principles identified in child welfare transformation as reflected in the 2006 revisions to the *CFSA*:

- A strengths and outcomes based approach to case planning;
- A recognition of children's need for continuity with family, community and culture;
- A commitment to best practice including a focus on child safety, permanency and wellbeing.

The Crown ward review process supports and promotes:

- Continuous quality improvement;
- Balanced reporting;
- Accountability;
- Transparency;
- An accurate reflection of CAS performance.

The Crown ward review process is part of a continuous quality improvement cycle with the expectation being that, over time, societies will strive to improve performance from one review to the next using the information collected from each review.

The CWR findings are based on the review of society files. In complex and/or high-risk cases, society caseworkers and managers may also be consulted. Each case file is reviewed in the year following 24 months of successive Crown wardship and every year after that.
